Summary

Detail-oriented junior MERN Stack Developer with hands-on experience across the full web development lifecycle, from responsive front-end interfaces to robust back-end APIs. Proficient in HTML5, CSS3, Tailwind CSS, Bootstrap, JavaScript (ES6), React, Node.js, Express.js, and MongoDB, with working knowledge of Figma for design handoff and Git/GitHub for version control. Known for strong attention to detail, clear communication, and a collaborative, problem-solving mindset.

Skills

HTML5 • CSS3 • Tailwind CSS • Bootstrap • JavaScript (ES6) • React • Node.js • Express.js • MongoDB • Vite • Git • GitHub • Figma • Postman

Experience

MERN Stack Development Intern — TechTribe

December 2025 – March 2026 (3 months)

- Completed an intensive internship centered on full-stack MERN development, contributing to multiple live, client-style projects spanning front-end design, back-end architecture, and third-party API integration.
- Worked across the entire development lifecycle — from translating Figma designs into responsive UIs to building and consuming REST APIs and integrating authentication and payment systems.

Projects

InterBase | Tech-Tribe Dev | Tailwind CSS

Live demo: inter-base-techtribe.vercel.app

- Built a fully responsive web application optimized for desktop, laptop, tablet, and mobile screens — first end-to-end responsive build.
- Implemented gradient-based visual styling and translated a Figma design into a pixel-perfect, production-ready interface.

Todo List App | Tech-Tribe Dev | MERN Stack

Live demo: frontend-tau-three-xnzrf3qdpq.vercel.app

- Developed first full-stack MERN application, implementing complete CRUD functionality across the front end and back end.
- Integrated JWT-based authentication for secure user login and signup.
- Designed a glassmorphism-style UI with sorting, filtering, and search capabilities.

Shopify Profit Tracker | Tech-Tribe Dev | MERN Stack

Live demo: shopify-profit-tracker-eight.vercel.app

- Built a custom Shopify Store API integration to pull and display live store data on the front end.
- Implemented custom subscription plans with feature gating, plus Stripe integration for checkout.
- Displayed paginated, real-time product and order data, including live revenue and cost summaries.
- Added CSV export for monthly summaries, products, and orders, with customizable report inputs.
- Built sorting and search functionality for both the products and orders management pages.

Education

BS Data Science — Allama Iqbal Open University (AIU)

Autumn 2025 – Present • Currently enrolled in Semester 2 (Open & Distance Learning)

FSC (Pre-Engineering / ICS) — Islamabad Model College for Boys, F-7/3, Islamabad | 2020 – 2023
